Features

Benefits

Customizable paint storage drawers

Solid oak dividers are provided to allow adjustable spacing in any of the eight notched cut-outs on the side of each paint drawer. 4.5" dividers are provided to organize small tubes, and 7" dividers are also provided to organize large tubes. Each divider is removable, allowing you to customize the drawer in any way you choose.

Large glass palette

A large glass palette provides plenty of area for paints. The bottom of the palette is covered with a neutral gray vinyl coating for accurate color mixing.

Pull-out tray

Built from solid 3/4" wood for durability and longevity, the pull-out tray increases the amount of available work area in A better Taboret.

Full extension drawer slides

Each drawer, as well as the pull-out tray, is installed with full extension slides. These slides provide better drawer access and include a drawer silencing feature for quieter movement.

Wheel Casters

A better Taboret includes (4) four wheel casters for easy mobility. The front two casters lock to keep the taboret in place while working.

Brush Notches

Notches along the back edge of A better Taboret provide an area to rest wet brushes during painting.
